4732

SPECIFICATIONS:

Standards: N/A

Description:

The universal snap mounting kit includes a 10mm stud, 10mm socket, threaded backing washer, conical nut, long screw, short screw, and ESD common point ground label. Everything needed to field install a screw or socket on all soft materials up to 3/8" thick. Screws are 6/32 Flat Head Phillips machine screws: one ¼" long and one 3/8" long. Punch a hole through the mat material and screw on a socket or stud, whichever is preferred. All that is needed is a Phillips screwdriver.
